To Whom It May Concern,

Please accept my strong support for Prof. Addie Clark to contribute to this long-term grant-funded initiative on behalf of our department and Oregon Tech. Addie is valuable faculty member within our Natural Sciences department, whose tenure and promotion reviews are scheduled for next year. I anticipate that she will do very well with those, due in part to her air quality research expertise and her willingness to engage in external partnerships such as the one you are reviewing.

Sincerely,
